

Building and Grounds

2022

Despite record heat, drought, and poison ivy, the Building and Grounds crew worked every week of 2022 maintaining the property. Beatriz and Diego Cobos, and their family mowed and trimmed the lawns around the church and parish hall while our “Wednesday Crew” mowed and maintained the soccer field area. Additionally, every week trash was taken out, and the labyrinth and flower beds watered and weeded. One of our growing tasks is cleaning up and repairing damage from our homeless “guests” who regularly use the church grounds as a camping area.

The Building and Grounds committee is committed to maintaining a clean, attractive, welcoming appearance of the church grounds. We appreciate any help and we would be happy to have you join us in this very active ministry.

Hal Hughes
