

During the last year (2022) we have made some necessary adjustments and changes to better assist us in moving forward in our changing world.

We changed telephone/internet and alarm security providers, accomplished minor cosmetic fixes to our buildings and structures. We installed five (5) new air conditioners over the course of the year. All this before the Christmas frozen water pipe breaking and beginning our journey to reclaim and retrofit aa major portion of our Parrish Hall so we may again conduct business there and enjoy our fellowship events that we all love attending.

We have passed through a lot this last year as a congregation. We still have some challenges to meet together in our joint financial responsibilities. We are still on the path to be a beacon for the corner of Parkfield and Breaker as we still strive to meet our obligations. I believe that it is the right place for us to be at this time. We continually meet the challenges before us, rejoice in the blessings we have received, continue to grow and overcome the obstacles we encounter, and always to give thanks to God for the many blessings still flowing to us.
